Constraints Analysis

(Fall 2010)

- Establish 'Reasonably Foreseeable' Funding
- Evaluate Environmental Sensitivity
 - Biological / Historic / Cultural
- Assess Community Acceptance
- Determine **Reduced** Scope of Improvements
- Forecast Potential Level of Congestion

Draft Transportation Objectives

Summary from Group Visioning Exercise;

- Optimize Community Connectivity
- Reduce Congestion & Improve Mobility
- Incorporate Safety & Equity in Facility Design
- Preserve or enhance Community Character & Environment
- Ensure Feasible Funding Plan & Implementation
- Provide Opportunity for Positive Socio-Economic Growth and Development

Evaluation Criteria

- Set minimum requirements—alternatives either meet the requirements or they don't
- Identify fatal flaws for early alternative screening—alternatives meeting these criteria are deemed feasible
- Base criteria on existing or readily available data
- Consider how criteria should reflect regulatory and policy imperatives
- Use criteria throughout the evaluation to eliminate alternatives as more information becomes available

Evaluation Criteria

- Used to Differentiate Costs & Benefits Between Each Feasible Alternatives
- Used in Identifying Trade-offs, Pay-offs, & Sacrifices of Each Feasible Alternative
- See Handout; Group Discussion

“Performance Measures”

- Performance measures help **quantify** the evaluation criteria
- Measure the extent to which a given alternative helps **achieve** the criteria
- Clearly indicates the **preferable** alternative in terms of anticipated outcome

“Five Minute Opportunity”

- Pressing Issues?
- Topics for the next agenda?
- Brief questions, comments, or concerns
